Subject: Center for Biological Diversity v. EPA, 17-cv-1044 (DDC) -- new FOIA suit

The Center for Biological Diversity filed a FOIA suit today alleging that EPA failed to respond to a FOIA request for records relating to the development and implementation of Executive Order 13778 (requiring review of the Waters of the United States rule). CBD requests that Court find that the Agency acted arbitrarily and capriciously by failing to comply with the FOIA, and to order EPA to make all responsive records available to CBD by a certain date.
